New Commercial Case Studies Available

Rinnai is pleased to make available two brand new commercial case studies. Incorporate these tools into your sales efforts to demonstrate how Rinnai Demand Duo can save customers on energy costs and reduced maintenance while enhancing the performance of their business or organization.

[Mainstay Suites Case Study](#) - Learn how this hotel in Winnipeg, Canada was able to upgrade their hot water system and increase customer satisfaction using Rinnai's Demand Duo Water Heating System and greatly reduce monthly energy costs by replacing their existing unreliable, inefficient and leaky atmospheric tanks.

[Countryside High School/Pinellas County School System Case Study](#) - Check out how Demand Duo was able to substantially decrease maintenance time and utility costs while increasing the useful life and dependability of the schools hot water system.

TB-116 and TB-134 Technical Bulletins

The purpose of these technical bulletins are to provide clarification on multi-unit installations.

- [Technical Bulletin 134 - RUR98i/e Piping Diagrams and Pump Settings for 2-Unit Installations](#)
- [Technical Bulletin 116 - Including an RUR Unit in Multi-Unit Applications](#)

Online Class of the Week

This week's highlighted course is **TRS-Cvent Training Course**. If you do any commercial plumbing and you have not heard of our Tankless Rack System, this course is really worth your time. We also want to bring your attention to two additional courses that are available, **Commercial Start-up and Commercial Maintenance**. You will find them under the CATALOG in the Commercial Training folder.

As always, check the training site for live training classes in your area.
