## Haws® Introduces Original Modular Bottle Filler and Drinking Fountain Design

**Honoring 110 years of hydration innovations, Haws has created a durable and aesthetically pleasing outdoor hydration solution with unique modular design for over 200+ configuration possibilities.**

[Sparks, Nevada USA] – Haws® is pleased to introduce the only **Outdoor, Modular Bottle Filler/Drinking Fountain Series**. This series allows product customization for individual design and functionality needs. With configurable options for placement of bottle fillers, dog bowls, drinking fountains, and hose bibs, this adaptable series of outdoor hydration products provides the option to interchange accessories. The interchangeable parts can be modified during or converted after installation to provide the best hydration solution at busy parks, schools campuses, and recreation facilities.

### Features:

- Robust matte powder-coated exterior for an aesthetically appealing look and feel
- Durable 3/16" thick steel exterior
- Modular functionality for arm placement
- Vandal-resistant components
- Freeze-resistant options available
- Additional color and branding customization options available
- Environmentally friendly hydration solution for reduced plastic consumption
